Activities

The Kids Korner after school program operates on a "group-centered" model, organizing students into age-appropriate groups based on their club preferences. Throughout the afternoons, children engage in a variety of activities and clubs alongside their peers and supervising staff members. These clubs cover a diverse range of interests, including Arts and Crafts, STEM, Sports, Dance, Baking, and more. To ensure that every child can explore different activities, the clubs follow a trimester schedule, offering opportunities to participate in various activities throughout the Fall, Winter, and Spring seasons.

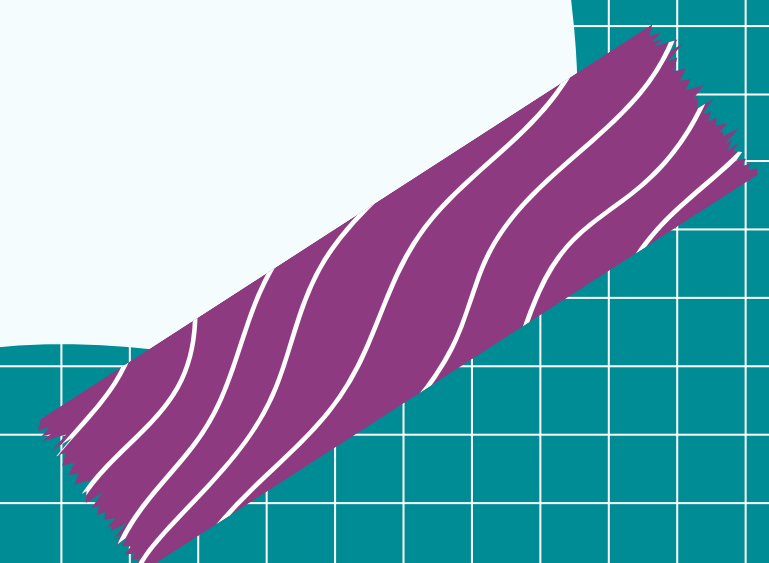

"Homework Help"

“Homework Help” is an activity built into each group’s daily schedule and is available M-F. Please note that while staff will do their best to help all students, this is not a private tutoring service. This time is dedicated to your children receiving assistance with their assignments and having their completed work checked.
